

June 7th, 2016

Dear Homeowner of the South Oldham Fire District:

On June 6th, 2016, the South Oldham Fire Department opened a new fire station at 7715 Old Zaring Road in Brownsboro (just off Hwy 329). The purpose of adding this new station is to enhance fire coverage for those in the Brownsboro area, as well as those along the Hwy 329/1694 corridor.

Additionally, this new station, given its closer proximity to your home, **may have a significant impact on your homeowner's insurance premium.** Therefore, **we encourage you to contact your insurance agent as soon as possible, provide him/her with the new fire station location and ask him/her to re-rate your premiums.**

While the South Oldham Fire Department is a combination department (staffed by both career and volunteer firefighters), this new fire station is currently staffed by a volunteer fire force. As always, we welcome those interested in joining our ranks as a volunteer firefighter, a great way to serve your community!!

Please contact me if I can answer any questions for your or your insurance agent.

We are proud to serve you!!

Sincerely,

Edward Turner
Fire Chief, South Oldham Fire Department
