New Fire Station in Brownsboro May Lower Insurance Rates for Residents

June 6, 2016 – The South Oldham Fire Department has announced the opening of its newest fire station at 7715 Old Zaring Road in Brownsboro.

The purpose of adding the new fire station is to enhance fire coverage for those in the Brownsboro area, as well as those along the Hwy 329/1694 corridor. Along with the additional fire protection, the station has the potential to significantly impact homeowners' insurance premiums.

Fire department officials encourage those homeowners in this area (particularly north of Brownsboro in the South Oldham Fire District) **to contact their insurance agent as soon as possible to determine if the new station has impacted insurance premiums.**

While the South Oldham Fire Department is a combination department (staffed by both career and volunteer firefighters), this new fire station is currently staffed by a volunteer fire force. As always, we welcome and invite those interested in joining our ranks as a volunteer firefighter, a great way to serve your community!!

About the South Oldham Fire Department

The South Oldham Fire Department is comprised of both career and volunteer firefighters/EMT's and paramedics. The department provides fire protection and emergency first responder services to residents in Crestwood and surrounding communities.
